

ARRIVAL INFORMATION

The East Village Apartments are located in central Manhattan in a historic New York brownstone. The apartments are on 3rd Street in the East Village, between Second Avenue and the Bowery (also known as 3rd Avenue), and are easily accessible to all three major airports.

Please tell the taxi driver to take you to the intersection of 3rd street and Second Avenue and stop on the right side of Second Avenue. You may get out of the taxi at the intersection and make a right on 3rd Street. East Village Apartments are the fourth brownstone on the left side of 3rd Street (House no. 32). If you give the actual street address, it may confuse the taxi driver as people in New York normally tell them the cross streets, not the address.

Remember to reconfirm your reservations with the car service on the day of your arrival. Tell your driver to take you to "2nd Avenue and 3rd Street." You may get out of the car there. We are located very near that corner, on the left (South) side of 3rd Street.

NOTE: Taxi or Private Car Service is by far the easiest, safest, and most convenient way to arrive at the apartment from the airports. We discourage the use of public transportation for airport arrivals. If you are considering public transportation for arrival from an airport, remember that taxi prices are per car, while all other forms of transportation are priced per person. Also, carrying luggage may be difficult on public transportation and it is possible for people to become lost or be delayed. Public transportation is an especially bad idea late at night when service becomes less frequent.
